"I don't just dry. I save you money and time."

MORE SAVINGS

Powered by gas, I use less energy to dry a load of laundry so you spend less on utilities.

"I don't just dry. I give beautiful clothes a new lease of life."

PROLONGS LIVES

As a high-tech life-saver of clothes, my built-in microchip sensor constantly monitors the humidity level to prevent over-drying, so clothes always turn out soft and fluffy. With me, clothes are not subjected to harsh sunlight, rain, pollution and bird droppings.

"I don't just dry. I give peace of mind "

WEATHER-PROOF

The weather does not affect the speed or qual
