

Alkaline Mineral Water on the Go

Filtered Alkaline Mineral Water Bottle changes tap water into alkaline mineral water by removing particles, organic contaminants, residual chlorine, bacteria and bad odour in water with its natural filtering function. In addition, its 600ml capacity is not only big enough to quench your thirst, but also sufficiently compact for bringing along to outdoor activities.

Test Results of Water Alkalinity

Tested by laboratory based in Singapore to be high in alkaline, with PH value above PUB's specifications for potable water quality.

ALKALINE ACIDIC

Filter System

- Silver Carbon
- Bio Ceramic Ball
- Magnet
- Bio Mineral Sand
